

Kaloo moonlights, the 2 in 1 Kaloo

Kaloo moonlights

Shrewdly conceived to comfort, soothe and calm your baby, Kaloo moonlights are soft and very innovative! This new generation of Kaloo soft toys will accompany your child as he evolves from a newborn to 6 years old, with tenderness and efficiency.

Available in several models, these innovative night-lights are produced in a supple and soft silicone ball integrated within a soft toy, made of extremely soft materials, such as micro fiber, cotton etc.

Moonlight kaloo car

This scalable product will accompany your baby through his childhood:

- Integrated into the chubby, the night-light can be safely placed in your baby's bed to help him sleep.
- An older toddler can carry his night-light as a lantern to go to the bathroom, ensuring no night fears.
- You can also hang the night-light in the corridor to create a soft diffused light.
- Kaloo moonlights are a soothing product, which will calm and comfort your child during his development.

The Kaloo moonlights are rechargeable (10 hours to fully restore the batteries' efficiency) and last 6 hours once fully charged. The silicon ball uses Ni-MH batteries that do not contain cadmium or mercury, making them more environmentally friendly than other types of batteries. All Kaloo moonlights are packaged and displayed in beautiful round boxes. All Kaloo moonlights are guaranteed for 12 months.
